

## Safety Data Sheet

### 1. Chemical product and company identification

Product name	: 1-Propyl-3-methylimidazolium iodide	
<b>Company information</b>		
Name of manufacturer	: KANTO CHEMICAL CO., INC.	
Address	: 2-1, Nihonbashi, Muromachi 2-Chome, Chuo-Ku, Tokyo, 103-0022, JP	
Name of section	: Business Administration Department, Reagent Division	
Telephone number	: +81-3-6214-1090	
Faxsimile number	: +81-3-3241-1047	
Mail address	: BC32@kanto.co.jp	
Reference No	: 32520	
Recommended use	: For research use only	
Restrictions on use	: Seek expert judgment when using the product for applications other than those recommended.	

### 2. Hazards identification

#### GHS classification

Health hazards	Skin corrosion/irritation	Category 2
	Serious eye damage/eye irritation	Category 2A

Hazard pictograms

Signal word : Warning

Hazard statements : Causes skin irritation  
Causes serious eye irritation

#### Precautionary statements

Prevention	: Wash hands, forearms and face thoroughly after handling. Wear protective gloves/protective clothing/eye protection/face protection.
Response	: IF ON SKIN: Wash with plenty of water. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Specific treatment (see supplemental first aid instruction on this label). If skin irritation occurs: Get medical advice/attention. If eye irritation persists: Get medical advice/attention. Take off contaminated clothing and wash it before reuse.

### 3. Composition/information on ingredients

Distinction of substance or mixture : Substance

Chemical name	Concentration (%)	Formula	TSCA	EC-No.	CAS RN
1-Propyl-3-methylimidazolium iodide	100	C7H13IN2	Not listed	-	119171-18-5

## 4. First aid measures

### First aid measures

First-aid measures after inhalation : Remove the victim to fresh air, and make him blow his nose and gargle.

First-aid measures after skin contact : Wash the affected areas under running water.

First-aid measures after eye contact : Wash the affected areas under running water for at least 15 minutes. If necessary, get medical treatment.

First-aid measures after ingestion : Give the victim water or salt water and make him vomit. Get medical attention.

Personal Protection in First Aid and Measures : Rescuers should wear proper protective equipment like rubber gloves, goggles.

## 5. Fire fighting measures

Suitable extinguishing media : Water, dry chemical powder, carbon dioxide, dry sand, foam

Unsuitable extinguishing media : None

Firefighting instructions : Move containers from fire area if it can be done without risk, if not possible, apply water from a safe distance to cool and protect surrounding area.  
Dry chemical powder, carbon dioxide or dry sand should be used for small fires. Foam extinguisher is effective for a large scale fire.

Personal protection (Emergency response) : Firefighters should wear protective equipment.

## 6. Accidental release measures

### Personal Precautions, Protective Equipment and Emergency Procedures

General measures : Wear proper protective equipment and avoid contact with skin and inhalation of vapor. Conduct operations from upwind and evacuate people downwind.

### Environmental precautions

Environmental precautions : Attention should be given to avoid discharge of spilled product into rivers and resulting environmental damage. When diluting spill with large amounts of water, discharge of untreated wastewater into the environment must be avoided.

### Methods and Equipment for Containment and Cleaning up

For containment : Absorb spill with inert material (e.g, diatomaceous earth, sand) and flush spillage area with copious amounts of water.

## 7. Handling and storage

### Handling

Technical measures : Wear proper protective equipment to avoid contact with skin or inhalation of vapor.

Precautions for safe handling : Use in well-ventilated areas.  
Do not allow contact with oxidizing substances.

#### Storage

Storage conditions : Store in a dark, cool place and tightly closed.  
Material used in packaging/containers : Glass, fluorine resin.

## 8. Exposure controls / Personal protection equipment

ACGIH TWA	Not established
-----------	-----------------

Appropriate engineering controls : Use with an enclosed system or a local exhaust ventilation.

#### Protective equipment

Respiratory protection : If necessary, wear chemical cartridge respirator with an organic vapor cartage  
Hand protection : Impervious protective gloves  
Eye protection : Safety goggles  
Skin and body protection : Protective clothing, protective boots

## 9. Physical and chemical properties

Physical state : Liquid  
Color : Pale yellow – reddish yellow  
Odor : Odorless  
pH : No data available  
Melting point : 17 ° C  
Freezing point : No data available  
Boiling point : No data available  
Flash point : No data available  
Auto-ignition temperature : No data available  
Decomposition temperature : No data available  
Flammability : Heating may cause a fire.  
Vapor pressure : No data available  
Relative density : No data available  
Density : No data available  
Relative gas density : No data available  
Solubility : Water: Soluble. Organic solvents: Soluble in ethanol and acetone, insoluble in hexane and diethyl ether.  
Partition coefficient n-octanol/water (log Pow) : No data available  
Explosive limits (vol %) : No data available  
Viscosity, kinematic : No data available  
Particle characteristics : No data available

## 10. Stability and reactivity

Reactivity : May react with oxidizing substances.  
Chemical stability : Stable under normal conditions.

---

Possibility of hazardous reactions	: Stable under normal conditions of use.
Conditions to avoid	: Light, heat.
Incompatible materials	: Oxidizing substances.
Hazardous decomposition products	: Carbon monoxide, nitrogen oxides, iodine, hydrogen iodide.

## 11. Toxicological information

Acute toxicity (oral)	: Classification not possible
Acute toxicity (dermal)	: Classification not possible
Acute toxicity (inhalation)	: No classification (gas) Classification not possible (vapor) Classification not possible (dust, mist)
Skin corrosion/irritation	: Causes skin irritation Since the substance causes skin irritation, it was classified into category 2.
Serious eye damage/irritation	: Causes serious eye irritation Since the substance causes eye irritation, it was classified into category 2A.
Respiratory sensitization	: Classification not possible
Skin sensitization	: Classification not possible As relevant notes, iodine and its compounds were classified as "group 2 for skin sensitizer" by Japan Society for Occupational Health, but all substances in this compound group were not identified.
Germ cell mutagenicity	: Classification not possible
Carcinogenicity	: Classification not possible As relevant notes, ACGIH classifies iodine compounds as A4 (not classifiable as a human carcinogen).
Reproductive toxicity	: Classification not possible
STOT-single exposure	: Classification not possible May cause respiratory tract irritation.
STOT-repeated exposure	: Classification not possible
Aspiration hazard	: Classification not possible

## 12. Ecological information

### Ecotoxicity

Aquatic acute	: Classification not possible
Aquatic chronic	: Classification not possible

### Persistence and degradability

No additional information available

### Bioaccumulative potential

No additional information available

### Mobility in soil

No additional information available

### Hazardous to the ozone layer

Ozone	: Classification not possible
-------	-------------------------------

## 13. Disposal considerations

Ecological waste information : Mixed with flammable organic solvents and burn in a chemical incinerator equipped with an afterburner and a scrubber. Or entrust approved waste disposal companies with the disposal. The incinerator should be suitable for burning organic halogen compounds.

Alkaline solution should be used for cleaning liquid of the scrubber.

Contaminated container and packaging : In case of disposal of empty bottles, dispose bottles after removing the content thoroughly.

## 14. Transport information

### International Regulations

#### Transport by sea (IMDG)

UN-No. (IMDG) : Not applicable

Proper Shipping Name (IMDG) : Not applicable

Packing group (IMDG) : Not applicable

Transport hazard class(es) (IMDG) : Not applicable

#### Air transport (IATA)

UN-No. (IATA) : Not applicable

Proper Shipping Name (IATA) : Not applicable

Packing group (IATA) : Not applicable

Transport hazard class(es) (IATA) : Not applicable

Marine pollutant : Not applicable

## 15. Regulatory information

Regulatory information with regard to this substance in your country or region should be examined by your own responsibility.

## 16. Other information

Data sources : Dictionary of Organic Compounds, The society of Synthetic Organic Chemistry, Kodansha Ltd. (1985) .
